COMPANY PROFILE

MISSION AND VISION

GSMAXX CONSTRUCTION CORP. (GCC) is a General Contractor Company specialized in Architectural/Civil and Engineering (Auxiliary/Cabling/MEPFS) . The company was established on September 26, 2012, to offer Clientele a well experienced construction team, composed of trades men, superintendents, and technical staff, using appropriate equipment and suitable construction methodologies required in each particular job. Safety in the work place is given utmost importance, together with the Timely completion of each project, at the required Quality and at reasonable Cost. The strength of the Company is based on the highly skilled and hardworking work force, under the supervision of experienced superintendents and supported by professional technical staff, and headed by the President and the Vice President with a combined experience of more than 65 years of working in the construction industry, both here and abroad.

MISSION STATEMENT

GCC is committed to provide safe, and timely delivery of each project, at the right quality and at reasonable cost, to the full satisfaction of the Clients and, Architects and Consultants, and the whole project team.

VISION STATEMENT

GCC will insure the Clients, Investors the entire project team get a fair return to their investment and also developed workers as real craftsmen, and get a fair share of their effort.

ENVIRONMENTAL POLICY

ENVIRONMENTAL POLICY:

GSMAXX CONSTRUCTION CORP. Is committed to environmental leadership in all its business activities by providing quality service in a manner that ensures a safe and healthy workplace for our employees and minimizes our potential impact on the environment. We will operate in compliance with all relevant environmental legislation, and we will strive to utilize the best industry practices in pollution prevention in all we do. Our policy, therefore, is to:

- Integrate the consideration of environmental concerns and impacts into our decision-making and activities.
- Train, educate, and inform our employees about environmental issues that may affect their work and encourage them to work in an environmentally responsible manner.
- Conserve natural resources by adopting pollution prevention practices, IE: extending the life of equipment through proper preventive maintenance scheduling, Implement a Reduce-Reuse-Recycle policy.
- Develop and improve operations and technologies to minimize waste and other pollution, minimize safety risk and dispose of waste safely and responsibly.
- Ensure the responsible use of energy throughout our business including conserving energy, improving energy efficiency, and giving preference to renewable energy.
- Communicate our environmental commitment to clients, customers, and the public and encourage them to support it.
- Where required by law, or where significant health, safety, and environmental hazard exists, develop and maintain an appropriate emergency and spill response program.
- Promptly report all non-compliance issues in accordance with the applicable governmental reporting requirements, evaluate causes of non-compliance and implement corrective action.
- Establish procedures for periodic review of environmental compliance with all existing environmental laws and regulations.
- Promptly correct any practice or condition, not in compliance with this policy.

HEALTH & SAFETY POLICY

HEALTH & SAFETY POLICY:

At **GSMAXX CONSTRUCTION CORP.**, We believe that the health and safety and the general welfare of our employees and everyone affected by our operations is of equal importance to quality, cost, production, and morale. In acknowledging this responsibility, the company aims, in so far as is reasonably practicable, to provide a working environment that is safe and of minimal risk to health by paying particular attention to:

1. Provision and maintenance of the working environment and system of work that are safe and without risk to any person.
2. Safe arrangements for handling, storage, and transportation of articles and substances.
3. Sufficient information instruction training and supervision to enable all employees to avoid hazards and contribute positively to their health and safety at work. Adequate communication of information, instruction and supervision will also be provided to avoid injury to any other persons likely to be affected.
4. Safe access to and egress from places of work.
5. The provision and maintenance of a working environment that is, so far as reasonably practicable, adequate with regards to facilities and arrangements for employees' welfare at work.

These policies can only be achieved with the active cooperation of all management, employees, contractors and visitors who have a duty to offer all necessary assistance to ensure the health and safety of themselves and others.

GSMAXX Construction also believes that it is the responsibility of all employees to perform their assigned duties safely by:

1. Following established safe working procedures.
2. Proper use of personnel protective equipment (PPE)
3. Following administrative control measures, and
4. Reporting, or where can be done safely, correcting unsafe acts and conditions.

DRUG & ALCOHOL POLICY POLICY

DRUG & ALCOHOL POLICY:

GSMAXX CONSTRUCTION CORP. Is committed to providing safe, healthy and secure environment to all our employees and anyone involved in our operations and activities. Our business and our reputation shall not be compromised by the presence of individuals who are under the influence of alcohol, illegal drugs, or the abuse of prescribed drugs. Therefore, we enforce zero tolerance on the use and abuse of drugs, alcohol and any other substance that would compromise safety and affect the person's fitness in performing his duty or would impair his concentration.

We will eliminate the risk of drug, alcohol and substance abuse in all our employees, including senior managers, directors, contractors and anyone who is representing us or acting on our behalf. Anyone suspected to be under the influence of drugs or alcohol which carries any risk of affecting that person's reactions, ability to make sound decisions, or impair his senses must be kept from entering the work site. We reserve the right to provide evidence of drug or alcohol abuse to proper authorities in order to ensure the safety and security of our workers and workplace.

This policy requires:

- That employees must be able to carry out their duties and must not be under the influence of any substance that would impair their ability to work safely and within the bounds of law.
- That employees are not permitted to work under the influence of drug or alcohol. Anyone suspected of being impaired due to drug alcohol, or substance abuse must be immediately removed from the work place and suspended pending investigation.
- That we reserve the right to carry out random drug and alcohol test to be carried out under reasonable suspicion.
- That we shall ensure that anyone who is deemed unfit to work in line with our zero tolerance policy will be dealt with in a fair consistent and constructive manner. The use and misused of illegal drugs and alcohol invariably inversely affect a person's ability to carry out his duties and to make decisions. This causes that person to be a danger to both himself and to those around him. Any person found in possession of, or with traces of illegal drugs in his specimen sample will be immediately discharged from the company.

GSMAXX CONSTRUCTION CORP.

MANAGEMENT TEAM

ORGANIZATIONAL CHART

GSMAXX CONSTRUCTION CORP. TABLE OF ORGANIZATION

THE CEO'S BACKGROUND

Engr. Benny M. Tuazon CEO

A graduate of Mapua Institute of Technology with BSCE degree, batch 1974. His PRC Registration Number is 15450. Upon graduation, he joined D. M. Consunji, Inc. (DMCI), where he started as field engineer and gradually rose to rank of Project Engineer until he migrated to United States (USA) in 1980.

His more than 35 years of actual construction experience started from one of the best and prestigious Construction companies in the Philippines all the way to USA.

Notable Philippine Projects are:

- Philippine International Convention Center (PICC) – Pile Driving
- Philippine Plaza Hotel – Pile Driving
- National Arts Center, Los Banos
- Central Bank Extension, Pile Driving
- Batasang Pambansa
- Emergency Repair of Ipo Dam
- PLDT Building
- Logging Road Construction, Log Exportation, Lebak, Sultan Kudarat

In Guam, USA, he worked with Pacific Rock Corporation as estimator and project engineer. The challenging and big project he handled was the US Navy Water Supply Line Project and Road Work Project.

In the Mainland, USA, he started Tuazon & Sons Construction Company. His construction company engaged in numerous projects such as Medical Building, Multi-Units Apartment, Single Family Residences and Industrial Buildings.

The Accreditation and Contracting of Tuazon & Sons Construction Company with California Department of Transportation (CALTRANS). Road and Bridge Construction (Freeway) as well as construction of Government Multi-Unit Residential Building Projects are major accomplishments in his contracting business outside the Philippines.

He also founded Maximum Asset Holdings for his Real Estate Development and Construction.

THE CEO'S BACKGROUND

In addition to contracting business in USA, he diversified to Healthcare Industry where he founded and started the following:

Ed-Lar Medical Supplies: Disposable and Durable Medical Equipment as well as Medical Oxygen Supplies.

Ultracare Pharmacy: A closed door pharmacy highly specialized in servicing healthcare facilities such as nursing homes, hospice and care homes.

Good Shepherd Healthcare: A comprehensive outpatient rehabilitation facility (CORF) specialized in Comprehensive Cardio-Pulmonary Rehabilitation.

In the Philippines, he founded GS MAXX CONSTRUCTION.

ENGINEERING AUXILIARY / CABLING / MEPFS

JOHNLORD Q. CORPUZ

Address: Zone 1 Brgy. Vargas Sta.Ignacia Tarlac, 2303
Mobile no. +63922 6021129 / +639565124647
Email add: Johnlord_corpuz@yahoo.com
Johnlord070681@gmail.com

QUALIFICATION / TECHNICAL SKILLS:

Plans and directs all aspects of engineering activities and projects within an organization. Ensures all engineering all engineering projects initiatives, and processes are in conformance with an organization's established policies and objectives. Utilizes best practice engineering and provides expert technical guidance for engineering initiatives. Incorporates components, materials and tools that results in cost effective and quality output. Manages overall engineering budget and costs. Typically reports to top management. Manages a departmental function within a broader corporate function. Develops major goals to support broad function objectives. Approves policies developed within various sub-functions and departments. Comprehensive knowledge of the overall department functions.

1. Knowledge in Design and implementation of different projects MEPF.
2. Good Management of people particularly in operation and projects.
3. Knowledge in trouble shooting for electrical wiring system.
4. Knowledge in substation Operation
5. Knowledge in ATS (Automatic Transfer Switch)
6. Knowledge in BMS (Building Management System)
7. Knowledge in wiring installation based on the specified standard such as Transformer, Power panel board, Feeder line, single line diagram.
8. Knowledge in the operating of air conditioning unit.
9. Building wiring and Layout including testing & commissioning.
10. Knowledge in HVSG/ LVSG/ Generator set and synchronizing panel system.
11. Experience in Simplex Control Programing specially for Street Lightings.
12. Experience in Edward Control system Street lights and Walkways.

CONSULTANT PROJECT MANAGEMENT BACKGROUND

SPECIAL TRAININGS AND SEMINARS (Latest)

- Construction in Commercial & Industrial Safety Training
- Contractor Development program,
 - Hiring, placement, accident investigation & reporting system,
 - Work permits & training program,
 - Planned inspection, maintenance system & central follow up system,
 - Emergency management system & personal protective equipment system,
 - Leadership, administration & communication system,
 - Basic & advance concept on contractor development program
- Management Problem of the Technical People in a Leadership Role,
- Skill-Based Training,
- Alternative Waste Water Treatment & Recovery System,
- 1st Metrology Congress
- Strategic Accounts Management,
- Measuring Instruments & Recorder Product Training,
- Advance Process Control & Instrumentation (Automation) Training,
- Signal Conditioning,
- Recognition Certificate of Instrumentation Society of America (ISA)

ACHIEVEMENT:

- Expanded the Philippine territory coverage for Process Control & Instrumentation and Test & Measuring Instrument through effective awareness and enhancement program, educating the target market segments that New Technology Transfer" is Now ready to to serve the various industries,
- Was able to achieved a "zero accident & punch list " of project/s handover,
- With the team effort as well as extensive clientele coverage, we were able to captured the acceptance of industries for BMS, PLC, Analyzers, SCADA & DCS in Oil & Gas, power & water utilities, semi conductors, cement, food, & beverages, other processing & manufacturing industries & commercial & high rise establishment,
- Was able to convert " on call client/s to annual contract" (supply, installation, commissioning, maintenance, enhancement, new project & referrals),
- Developed & established distributors, dealers, sales channels & after sales services in the entire Philippine Island of coverage.

EDUCATIONAL & PROFESSIONAL QUALIFICATIONS:

Bachelor of Science in Mechanical Engineering
National University, 1980
Sampaloc, Manila

Advance CMT, PA
University of the Philippines, 1981
Diliman, QC

PROFESSIONAL MEMBERSHIP:

Philippine Instrumentation & Control Society
Instrument Society of America

SANTOS SOLAR PROJECT

LAND DEVELOPMENT (20 hectares)

General Santos

fppt.com

PROJECT SCOPE:

SOLAR ELECTRIC SYSTEM

THE PROJECT ENTAILS THE INSTALLATION OF A SOLAR PHOTOVOLTAIC SYSTEM AT THE PROJECT SITE. THE SYSTEM WILL BE A NET ELECTRICITY EXPORTER TO THE UTILITY GRID.

THE INSTALLATION CONSISTS OF NEW FIXED TILT GROUND MOUNTED STRUCTURES WITH MOUNTED PHOTOVOLTAIC.

THE SYSTEM WILL BE INTERCONNECTED TO AND WILL BE OPERATED IN PARALLEL WITH THE LOCAL ENERGY PROVIDERS ELECTRIC GRID PER THE REQUIREMENTS OF THE NATIONAL ELECTRICAL CODE.

THE ENGINEER OF RECORDS HAS NOT BEEN PROVIDED WITH ANY REQUIREMENTS OR REGULATIONS FROM THE PROJECT JURISDICTION, THEREFORE, THE PV SYSTEM HAS BEEN DESIGNED TO THE 2011 NATIONAL ELECTRIC CODE STANDARDS.

GENERAL NOTES:

ALL UNITS ARE IN METERS UNLESS OTHERWISE NOTED ON THE DRAWINGS.

ALL WORKS SHALL CONFORM TO THE CURRENT AND ALL GOVERNING GOVERNMENT CODE AND REGULATIONS.

ALL WORKS SHALL CONFORM WITH THE INFORMATION SHOWN IN THE DRAWINGS.

THE CONTRACTOR IS RESPONSIBLE FOR ESTABLISHING LINE AND GRADE IN CONFORMANCE WITH THE INFORMATION SHOWN ON THE DRAWINGS.

CONTRACTOR SHALL BE RESPONSIBLE FOR THE SAFETY, HEALTH, ENVIRONMENTAL AND SECURITY COMPLIANCE IN CONFORMANCE TO THE RULES AND REGULATION SET BY REGULATORY AGENCIES OF THE PHILIPPINES.

CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AND MAINTAINING WARNING SIGNS, DEVICES, LIGHTS AND FLAGMEN IN ACCORDANCE WITH THE DEPARTMENT OF LABOR AND EMPLOYMENT FOR CONSTRUCTION SAFETY AND HEALTH STANDARDS.
